Bruno Tapia Sierra

Software Engineer

Work Experience

Full Stack Engineer   **March 2021 - Present**
Cafecito
- Design and develop a rescheduling feature which improved Cafecito's "no show" rates by nearly 50%.
- Responsible for fixing bugs, improve existing code, and solve live production problems.
- Gained experience in Redux state management workflows and React functional component programming while keeping performance optimizations in mind.

Software Engineer Fellow   **July 2020 - September 2020**
Moringa Fellowship
Project: Cafecito B2B Project
- Iterated with the design team to improve upon existing code and build out new features demanded by the client.
- Worked with a team of four engineers to develop product improvements from the ground up and implement them.
- Worked with frontend/backend legacy code and modernized it by conforming to current standards and writing tests.

Frontend Intern   **May 2020 - August 2020**
Esports Development League
Project: ESDL Placement Tool
- Developed a drag and drop feature using Sortable.js library and React, which improved the time it took for an admin to rearrange players by 40%.
- Worked with admins and gathered research to best design and develop this feature.

Software Engineer   **December 2019 - March 2020**
2720 miles
- Built a full stack eCommerce web app using React, JavaScript, Node, Express, PostgreSQL, and AWS S3.
- Set up web hosting via Nginx on a Ubuntu virtual machine using DigitalOcean droplet server.
- Used Paypal API's to securely allow a payment process from customer to client.

Emergency Medical Technician   **February 2019 - August 2019**
American Medical Response
- Acted quickly using comprehensive knowledge of emergency skills to assess, treat, stabilize and transport ill or injured patients to the proper hospitals.
- Worked with doctors, nurses, paramedics, firefighters, and other EMTs.

Education

General Assembly   **October 2019 - January 2020**
Software Engineer Immersive, Certificate

Skyline College   **August 2009- May 2012**
Computer Science, AS
